Fiscal Year 2014-15 Accountability Report

SUBMISSION FORM

AGENCY MISSION

The mission of the State Election Commission is to ensure every eligible citizen in South Carolina has the opportunity to register to vote, participate in fair and impartial elections, and have the assurance that their vote will count.

Please identify your agency's preferred contacts for this year's accountability report.

	<u>Name</u>	<u>Phone</u>	<u>Email</u>
PRIMARY CONTACT:	Chris Whitmire	803-734-9070	cwhitmire@elections.sc.gov
SECONDARY CONTACT:	Howard Snider	803-734-9004	hsnider@elections.sc.gov

I have reviewed and approved the enclosed FY 2014-15 Accountability Report, which is complete and accurate to the extent of my knowledge.

AGENCY’S DISCUSSION AND ANALYSIS

The mission of the State Election Commission (SEC) is to ensure every eligible citizen in South Carolina has the opportunity to register to vote, participate in fair and impartial elections, and have the assurance that their vote will count.

Conducting elections is a technologically and legally complex profession, subject to exceptional scrutiny by voters, candidates, media, and the legal community. This requires everyone involved in the elections process, whether at the municipal, county, or state level, to possess a wide variety of core competencies including technological, logistical and management skills, as well as a high level of election experience and expertise.

While state and local election officials share in the responsibility of conducting elections, the SEC, as the chief election agency in the state, is responsible for overseeing the overall voter registration and election process. Specifically, the agency is tasked with:

- Maintaining the statewide voter registration system
- Supporting the statewide voting system
- Conducting a candidate filing system
- Performing audits and post election analysis of county boards of registration and elections
- Stepping in to assist counties if they are noncompliant with state law, federal law or SEC policies and procedures; or if the county is unable to certify results of an election in a timely manner
- Conducting a training and certification program for local election officials

Everything we do as an agency – our programs and projects – emanates from these responsibilities. The primary goal is to provide the highest level and quality of service possible within these mandates.

In the last two years, two major legislative changes have significantly impacted the SEC. In 2014, state and county election officials conducted candidate filing for the general election for the first time. Candidate filing was previously conducted by political parties. In June 2014, the legislature passed a bill giving the SEC supervisory and audit authority over all elections.

This was a significant change for the SEC and county boards of registration and elections. The SEC is required to perform audits and other post election analysis to determine if county boards are compliant with state and federal laws as well as SEC policies and procedures. The agency is also tasked with preparing audit reports, making recommendations for improvement and overseeing corrective actions. If the county is found to be noncompliant or is unable to certify the results of an election, the SEC can step in and assist a county with certification or day-to-day operations if necessary.

The long-term effect of these legislative changes will be increased accountability, transparency and better run elections. However, adequate funding is imperative in order to fully implement an audit and post analysis program.

MAJOR ACHIEVEMENTS

2014 Statewide General Election

The SEC and county election commissions successfully conducted the November 4, 2014 Statewide General Election. The SEC created databases and provided election support to 46 county election commissions. Nearly 1.3 million South Carolinians voted for a variety of offices on federal, state and local levels. More than 18,000 poll workers and election officials across the state worked diligently to ensure the General Election was a success.

Election Results Audits

The SEC conducts statewide, pre- and post-certification election results audits on all state-level elections. The SEC also offers auditing services for county and municipal election commissions conducting local elections. Election audits help ensure election results are certified accurately, verify that each ballot was counted, provide enhanced election transparency, and help identify opportunities to run elections more efficiently. The 2014 General Election was the first statewide general election in which all counties participated in the audit program.

Polling Place Line Management

The SEC worked during FY2015 to raise awareness of polling place line management techniques. The Agency held meetings with directors from all 46 counties focused on queue management at polling places. Queue management techniques were also added to the Poll Manager’s Handbook, the Poll Manager Training Presentation, and Training and Certification Program classes.

Security Enhancements

A procedure was developed so that all users of the statewide voter registration system are now required to sign a security agreement in order to retain access to the system. This is audited twice yearly and constantly monitored to ensure only authorized personnel have access to Voter information. A two-factor authentication solution has been implemented to further secure this system. A full gap analysis has been performed on SEC information security and technology. The agency information security officer is working in conjunction with other agency security officers across the state to develop policies and procedures to make the SEC fully compliant with Department of Technology Office policy.

Training & Certification Program Enhancements

State law requires the SEC to train and certify election officials. In FY2015, the SEC implemented a training management system that allows Training & Certification Program participants to sign up for classes, pay fees, and track the progress of their certification online, among other functionalities.

Local Election Support

In an effort to ensure success of the statewide voting system, the SEC provided voting system support to county boards of voter registration and elections for approximately 200 local elections; including county, special, and municipal elections. The SEC provided county offices with training, media relations, and voting system support. Counties save more than \$1.5 million annually by taking advantage of voting system services provided by SEC staff, rather than contracting services with the system vendor.

AGENCY NAME:	State Election Commission		
AGENCY CODE:	E28	SECTION:	100

Certification Deadline for Presidential Candidates

State law was changed in FY2015 to require state political parties to certify candidates for President and Vice President to the SEC no later than noon on the Tuesday follow Labor Day. Previously, the deadline for certification of Presidential candidates was September 10 (25 days after the deadline for all other candidates, August 15). The new deadline provides the SEC and county boards of voter registration and elections with at least two and as many as eight additional days to prepare ballots and voting machine databases and to meet the federal 45-day deadline to mail absentee ballots to military and overseas citizens.

Voter Education and Outreach

The SEC continued to reach out and educate voters on all aspects of voter registration and elections through the Agency’s *SC Votes* voter education initiative. The statewide initiative helps ensure voters are informed about the requirements, processes, procedures, and deadlines associated with voter registration and voting in South Carolina. FY2015 efforts focused on continuing to educate voters on Photo ID requirements. The initiative includes: educational brochures, posters, videos, outreach at public events, a voter education website (scVOTES.org), social media messaging, and a statewide media campaign. In FY2015, the SEC was recognized by Google for improving elections through open data by highlighting its contributions to the Voting Information Project. The Agency works with Google to help provide election information to the public on location of polling places, election rules, and other election information.

KEY OPPORTUNITIES & CHALLENGES

Replacing the Statewide Voting System

The SEC held a voting system fair in May 2015 to educate election officials, members of the General Assembly, and other voter advocacy groups on current voting technologies. Approximately 200 attendees heard from four of the six voting system vendors with federally certified voting systems (or systems pending certification) and a panel of national election administration experts. The State Information Technology Management Office provided information on the state procurement process. The SEC conducted requirements gathering workshops throughout the state to gain input for development of a request for proposals.

The statewide voting system was implemented in November 2004 at a cost of approximately \$34 million, funded mostly through a federal grant. The system includes more than 12,000 touch screen voting machines, more than 2,000 touch screen voting machines with audio ballot capabilities for the visually impaired, optical ballot scanners for absentee by mail ballots, and other peripheral equipment. The system is reaching the end of its life cycle.

The SEC is planning for the replacement of the current voting system. Over the past four fiscal years, the Agency has made budget requests to purchase a voting system. To date, the SEC has received \$1 million of the estimated \$40 million anticipated cost.

County Compliance Audits

As of June 2014 with the passage of S.815, the SEC was given authority to audit counties for compliance with state and federal law by requiring reviews, audits or other post election analysis. The agency received initial funding to hire a consulting firm that successfully developed the county field audit program. During FY2015, one compliance auditor was hired. However, the program is not fully

AGENCY NAME:	State Election Commission		
AGENCY CODE:	E28	SECTION:	100

operational thus requiring the SEC to request additional funding and resources. The agency anticipates having the program fully operational by November 2016.

Election Legislation

Each year the SEC provides information to the General Assembly to develop and enact legislation to improve the efficiency and effectiveness of voter registration and elections.

Agency Funding

While the SEC has received funds in recent fiscal years to reduce a shortfall in personal services, the agency remains underfunded by approximately \$400,000.

Following the passage of Act 196, the FY2016 budget included half of the necessary funding for implementation of Act 196 (county compliance audits) in the amount of \$371,000. In order to fully implement the Act, an additional \$371,000 is needed.

Over the past four fiscal years, the Agency has made budget requests to replace the state’s aging voting system. The projected cost is \$40 million.

Due to agency growth and the pending sale of the state-owned building where the Agency has been located for more than 30 years, the Agency is moving its location and will be requesting funds to cover the increase in rent.

Strategic Planning Template

Type	Item #			Description
	Goal	Strat	Object	
Goal	1			Improve the voter registration process for all citizens by increasing access and opportunities to register to vote
Strat		1.1		Increase use of Online Voter Registration (OVR) by increasing awareness of the process and ease of use of the application
Object			1.1.1	<i>Increase percentage share of voter registration applications received through OVR in each fiscal year</i>
Object			1.1.2	<i>Make mobile OVR application available for use no later than September 1, 2016</i>
Strat		1.2		Increase security of all voters' personally identifiable information in the Statewide Voter Registration System
Object			1.2.1	<i>Implement two-factor identification security protocols no later than November 1, 2015</i>
Object			1.2.2	<i>Require all county users to sign security agreements no later than October 1, 2015</i>
Strat		1.3		Increase public access to voter registration information and statistics
Object			1.3.1	<i>Provide voter registration information and statistics to the public in a timely and accurate manner</i>
Goal	2			Improve the election process statewide while ensuring all elections are conducted in a fair, impartial, and accurate manner
Strat		2.1		Maintain quality of statewide elections by providing quality, professional voting system database building services
Object			2.1.1	<i>Provide all election databases to jurisdictions no later than 50 days prior to date of election</i>
Object			2.1.2	<i>Improve database development processes and procedures to reduce and eliminate defects in databases produced</i>
Object			2.1.3	<i>Provide results of all pre-certification audits to election authority prior to certification hearing</i>
Object			2.1.4	<i>Reduce and eliminate instances of counties certifying inaccurate results</i>
Strat		2.2		Improve quality of statewide elections by replacing current voting system
Object			2.2.1	<i>Obtain funding for voting system by FY2017</i>
Object			2.2.2	<i>Release Request for Proposals by January 2016</i>
Object			2.2.3	<i>Begin implementation of new voting system in January 2017</i>
Strat		2.3		Ensure equal access to ballots for all candidates by providing for fair and open candidate filing process
Object			2.3.1	<i>Provide information to public on requirements to file for office no later than February 2016</i>
Object			2.3.2	<i>Provide accurate information to public on filed candidates in real time as candidates file during the filing period</i>
Object			2.3.3	<i>Ensure county compliance with candidate filing laws and procedures</i>
Strat		2.4		Increase level of polling place accessibility for all voters
Object			2.4.1	<i>Conduct survey of all polling places statewide to gauge accessibility by August 2015</i>
Object			2.4.2	<i>Report results and provide counties with information and guidance on improving polling place accessibility by October 2015</i>
Object			2.4.3	<i>Increase overall level of accessibility of all polling places in each fiscal year</i>
Strat		2.5		Ensure election results are reported completely, accurately, and timely
Object			2.5.1	<i>Ensure 100% compliance with requirement for counties to report unofficial results on election night</i>
Object			2.5.2	<i>Ensure counties comply with verification procedures to ensure accuracy of unofficial results</i>
Object			2.5.3	<i>Require all counties report partial election night results beginning with the 2014 General Election</i>
Strat		2.6		Improve polling place experience for voters and poll managers
Object			2.6.1	<i>Increase use of electronic poll books in all 46 counties in every fiscal year</i>
Object			2.6.2	<i>100% usage of electronic poll books in all counties</i>
